Construction Subtotal =	\$	2,200,000.00
Planning & Design =	\$	225,000.00
Construction Engineering =	\$	125,000.00
Project Total =	\$	2,550,000.00

Notes:

1. Estimates based on the best available cost information for the past 12 months.
2. Current economic conditions and supply chain limitations could severely impact these estimates.
3. Quantities and detailed procedures are approximations based on visual inspections and scaling from existing maps. Final route survey and design will provide more exact quantities and construction measures.
4. The non-construction costs are based on a single construction contract with an estimated duration of 240 days.
